

SCIENCE. SERVING PEOPLE.

## SKC Inc. Quality Policy

SKC is guided by its Quality Policy in every product we manufacture and in every service we provide. This ensures that all aspects of quality are built into our products and services by **continuous improvement, research and development, reducing cost of poor quality, and increasing on-time delivery**. SKC Inc. strives to deliver the finest products and services, guaranteeing **customer satisfaction**.

SKC's core values are service, integrity and passion.

**Service: We are dedicated to exceeding expectations, putting people first in everything we do to create meaningful impact.**

**Integrity: We act with honesty and accountability, building trust through transparency and ethical practices.**

**Passion: We approach our work with energy, enthusiasm, and a genuine commitment to improving lives through innovation.**

**Leadership** is committed to all aspects of quality from the products we design, manufacture, and sell to the services, expertise, and support we provide for our customers.

All SKC employees are responsible for and committed to maintaining quality, **safety**, and ensuring that all products and services conform to technical specifications that result in customer satisfaction.

A handwritten signature in black ink that reads "Susan Walton".

Susan Walton

President of SKC. Inc.
