Control Cover

Cat. No. P20105

For use with AirChek 52 Cat. No. 224-52

Operating Instructions

1. Loosen the two battery pack security screws located on the bottom sides of the battery pack. Press the battery pack release arms and slide the battery pack away from the case.
2. Remove the two screws holding the belt clip onto the case and remove the belt clip.
3. Remove the single screw located beneath the belt clip and gently remove the pump from the case.
4. Prepare the new control cover by pushing the pin into the left side of the control cover (the side closest to the interior of the case is the left). Push the pin through the cover until it is flush with the right side of the cover (the side closest to the exterior of the case is the right). **The pin should be extended out the left side and flush with the right.**
5. Slide the pin into the left hole on the top of the case. Using slight pressure, snap the cover into place.
6. Hold the cover in place and turn the case over, exposing the interior of the case. Using a screwdriver, press the pin toward the right (or exterior side) until it snaps into place.
7. Reassemble the pump.
